## WILDLIFE FOOD

Watching wildlife is a great experience for both enjoyment and education. Appreciating nature also means respecting it. Lyric Wildlife Mix was created with a caring approach to provide all natural nutrition to the creatures that entertain and amaze us.

Our steamed, flaked corn has been proven to be easier to digest for some animals. Ingredients like peanuts, black oil sunflower and peas are some of the other foods your backyard visitors will enjoy. You can see wild song birds like blue jays pick up peanuts in the shell and take them away for hiding. Watch squirrels and rabbits bound around your yard. Try to feed a chickadee from your hand.

### Attract and Feed:

**Cardinals**

**Chickadees**

**Jays**

**Rabbits**

**Squirrels**

**Titmice**

**AND  
MORE!**

Please check with your local, county, state and federal laws to see what animals you are allowed to feed and if there are any seasonal restrictions on feeding. Wildlife is not meant to be domesticated. This food is only to be used as a supplement to the animals diet.

Responsible feeding includes keeping feeding areas clean and dry. Remove any damp, wet food. If you are using a feeder clean it to prevent disease. Feed away from your home and be cautious about leaving food outside overnight. Nocturnal feeding may draw nuisance animals like skunks or dangerous animals like bear. Be careful not to engage animals due to possible disease, aggressive defensive behavior and confusing their instinctive tendencies. Being a good steward toward nature will allow you to enjoy it more.

Further enjoy the natural beauty of songbirds with Lyric's full line of wild bird food including:

**Supreme**

**Chickadee**

**Fruit & Nut**

**Finch**
